### Fellow Adventurers

Dodging icebergs? This year? Last week of May?  
Not this year !!!!

Thanks to a milder winter, there is significantly less ice than last year, meaning we should have a normal "ice-out" in time for the upcoming fishing season. By opening day, it should be clear waters and easy fishing!

### Reel UP of 2009

- Over 100 Master Angler cards were filled out
- 18 new American and Canadian Families chose to spend their summer holidays with us and enjoyed their Family Adventures.
- Ice fishing came into full swing last year after placing three ice huts on the Cranberry Lakes, targeting, Pike, Walleye and Lake Trout.
- Fresh paint for all motel rooms except 7.
- Upgraded water/septic systems for the motel

WOW !!!!! A **35-inch Walleye** (tied for second place in Manitoba Master Angler Program for 2009) caught by Richard McGahen from Camron, Missouri

**80 % success on our bear hunts his year**

The Crider / Sewell hunting party from Texas. All three bow hunters were successful in bagging a Trophy Manitoba Black Bear. The biggest, claimed by Lynn Crider, weighing in at a whopping 380 pounds.

### Casting out for the 2010 season

- New Decks for Cabins 1, 4, and 6.
- If the weather cooperates we should have one of the docks replaced prior to the start of the fishing season.
- Painting inside Cabins 1 and 2
- Beaver cans at all our bait sites
- Cuddeback game cameras at bait sites

For those of you who sent in pictures, I've put them all up on the Lodge website. If there are some that are missing, please contact me.

### Tagging out

- Some fishermen have inquired about the availability of night crawlers and leeches for this coming season. If the interest is there I would gladly start to stock these. I need your suggestions and ideas.
- A reminder to all about the new passport requirements in effect now for **all** travel across our borders

*Be sure to book your trip early to avoid disappointment*
